

ISO 27001:2013 Lead Implementer, Certification

Hands-on course of 2 days - 14h

Ref.: LED - Price 2024: €1 760 (excl. taxes)

EDUCATIONAL OBJECTIVES

At the end of the training, the trainee will be able to:

- Know the principles of an ISMS
- Lead a project to enact an ISMS
- Assessing risks and writing a statement of applicability
- Propose action plans

CERTIFICATION

To take this exam remotely, the candidate must procure all the required standards in hard copy, on their own. The final exam certifies that you have the knowledge and skills needed to implement an ISMS in accordance with the ISO/IEC 27001:2013 standard. The certification exam is taken in French at the end of the session. It is conducted in partnership with the COFRAC-accredited certifying body LSTI.

THE PROGRAMME

last updated: 07/2021

1) Exercises - Hands-on work

- This course offers you numerous exercises, case studies, and hands-on tasks to serve as preparation.
- The focus is on optimal preparation to take the exam.
- Security-related projects will be offered to you in order to experiment through practice.
- Implementing a PDCA approach and ISO 27001 and ISO 27002 best practices.
- You'll create a statement of applicability based on an ISO 27001 or 27005 risk analysis.
- You'll learn how to determine the key indicators of an ISSP and a security project.
- An interactive instructional approach will be offered to you.
- The new ISO 27001 I/LI exams: Questions about ISO 19011 auditing and ISO 17021/27006 certification practices.

Exercise : Written and oral role-playing exercises, multiple-choice knowledge tests.

2) Group corrections

- The results of the exercises and hands-on work will be given to you in the form of group corrections.
- During these corrections, any mistakes will be analyzed and discussed.

3) Final review.

- To end preparation, there will be a final review.
- Tips, tricks, and pitfalls to avoid will be given to help you prepare to take the exam.

4) Preparing for and taking the test

- The exam will be previewed online on the first day of the training: Content and rules to be followed.
- The technical prerequisites for the online exam (webcam enabled, Internet connection).
- Administrator privileges to install anti-cheating software, etc.
- This exam is done on the online testing platform TESTWE (testwe.eu).
- If the exam is taken on Orsys premises, Orsys handles the preparation of the candidate's workstation.
- When taking the exam on Orsys property, the standards described in the training are loaned in hard copy.

TRAINER QUALIFICATIONS

The experts leading the training are specialists in the covered subjects. They have been approved by our instructional teams for both their professional knowledge and their teaching ability, for each course they teach. They have at least five to ten years of experience in their field and hold (or have held) decision-making positions in companies.

ASSESSMENT TERMS

The trainer evaluates each participant's academic progress throughout the training using multiple choice, scenarios, hands-on work and more. Participants also complete a placement test before and after the course to measure the skills they've developed.

TEACHING AIDS AND TECHNICAL RESOURCES

- The main teaching aids and instructional methods used in the training are audiovisual aids, documentation and course material, hands-on application exercises and corrected exercises for practical training courses, case studies and coverage of real cases for training seminars.
- At the end of each course or seminar, ORSYS provides participants with a course evaluation questionnaire that is analysed by our instructional teams.
- A check-in sheet for each half-day of attendance is provided at the end of the training, along with a course completion certificate if the trainee attended the entire session.

TERMS AND DEADLINES

Registration must be completed 24 hours before the start of the training.

ACCESSIBILITY FOR PEOPLE WITH DISABILITIES

Do you need special accessibility accommodations? Contact Mrs. Fosse, Disability Manager, at psh-accueil@ORSYS.fr to review your request and its feasibility.

- To take this exam remotely, the candidate must procure all those standards in hard copy, on their own.

- Required standards: ISO 27000, ISO 27001, ISO 27002, ISO 27005, ISO 19011, ISO 17021, ISO 27006.

Exam : The exam is a multiple-choice/fill-in-the-blanks questionnaire It lasts two and a half hours. It is worth 100 points. If at least 65% of the answers are correct, the exam is passed.
